

# Now you can deposit checks right from your desk

Does your business get paid by check?

Does each check have to be entered by hand, endorsed and photocopied for your records?

Does someone spend hours each week going to the bank to deposit them?

What if you could:

- deposit your checks from your desk
- have a completely secure, instant visual record of all your checks
- link to your accounting system?

Introducing the Secap  
Click Deposit™ Service!

Put your checks in the tray and this service will take care of the rest. It will handle error corrections and email you if there is a problem. You will be notified of insufficient

funds in 2 days, faster than paper check deposits.\* And should a check be returned, it will be presented electronically up to 3 times, once more than with paper check deposits.\*

Secap's revolutionary mailing systems let you buy postage from your desk with a click. Now we are offering a revolutionary way for your business to handle checks.

#### Benefits

---

Save time – eliminate processing, posting and depositing steps

---

Improve business cash flow and reduce Desk Float

---

Increase security – store images, shred checks

---

Minimize data entry mistakes and lost checks

---

Use with any bank

---

Help the environment –  
use less paper and less fuel

**SECAP.**®

# How It Works

Log onto your Pitney Bowes Click Deposit™ account

Enter the total number of checks  
and the total deposit amount

Put checks in scanner and they are  
scanned and endorsed automatically

The service automatically balances the deposit,  
corrects any errors and enters any missing information

If there are any problems, you'll be notified by email

The deposit is sent to your bank electronically

You'll be notified if any of the checks have  
Insufficient Funds (NSF) within 2 days\*

Your account will be credited and  
you can access your deposited funds

## Features

Low cost, with no need to maintain minimum balances

Use with any bank you want, even multiple banks

Works with accounting software like Quickbooks

Web-based

Search and retrieve deposit information instantly

Get notification of "Insufficient Funds" in just 2 days!\*

Multiple accounts per scanner, multiple authorized users

Real time, flexible reporting – enter as much detail as you want

Automated check re-presentation up to 3 times  
(compared with only twice for paper checks!)\*

Clear, easy-to-understand pricing

Deposit and Process any type of paper check:

Corporate checks

Personal checks

Cashier's checks

Third-party checks

Money orders

## Process Checks Faster and Eliminate Redundant Accounts

Do you collect all your payments and then make a single deposit each week? Do you have multiple offices or locations, with each office sending you their checks to be deposited? Are you tired of needing a separate bank account for each location, increasing your monthly fees and minimum balances?

The Click Deposit™ Service reduces Desk Float – the lag time in payment processing. With a check scanner at every location where your company accepts checks, payments can be deposited every day, even after banks are closed. And the service allows some companies to eliminate redundant bank accounts.
