DETAILS

Non-Stop Printing with Dual Print Heads

No downtime required for maintenance. Your operation can run continuously with automated self-cleaning.

Compelling Total Cost of Ownership (TCO). The proven technology of the DP16KR combined with virtual non-stop productivity, ink-saving technology and the Controlled Acceptance Indicia, make the TCO for the DP16KR very attractive.

No Downtime to Add Ink - Ever

Dual print functionality; easy to replace one ink cartridge while the system continues to run on the other.

No time wasted cleaning up messy red meter ink. High-capacity cartridges are clean, quick to load, and cost effective.

Prints Crisp Indicia with Patented, Fast-Drying Ink

Innovative black ink dries instantly for no smudge high speed printing of high quality indicia.

USPS® approved Controlled Acceptance Indicia uses nearly 50% less ink than the Full Letterbox Indicia, extending the life of the cartridge. The Controlled Acceptance Indicia costs \$0.39 per 1,000 impressions.

Mobile Unit Simplifies Postage Refills

Removable User Interface Control (UIC) makes refills simple without the need for a phone line connection to your production floor.

With IntelliLink® technology you can instantly download rates, software upgrades, and postage refills so you don't run out of postage again.
