DOCUMENT SHREDDER MODEL SH5A

In today's changing world, if certain information from your company got into the wrong hands, it could lead to devastating results. While it's important today to recycle paper waste, some documents need the security of being shredded first. The Secap shredder model SH5A has a small footprint to fit right next to your desk and is at your fingertips to use.

The Model SH5A is incredibly quiet and versatile for light duty needs. It handles documents without having to remove staples and paper clips. The system's hands-free operation makes it safe and easy to use. The SH5A shredder automatically starts the moment your confidential documents are fed into it and turns off when it has completed the job.

1. Feed Opening

The contemporary design of the SH5A provides a 9-1/2" throat opening to shred letter size documents quickly and easily.

2. Hands Free Shredding Right At Your Desk

Automatic on/off allows you to shred your documents hands free. Convenient auto shut-off when waste bin is full.

3. Self Contained Unit With Casters

The SH5A is small enough to fit under your desk for easy access yet its rolling casters allow this unit to move around the office easily. The self contained unit provides a quiet and dust-free operation.

4. Cross cut shred

Produces cross-cut unreadable pieces to protect confidentiality. Solid steel cutting blade easily handles paper clips and staples, no need to remove them before shredding.
